CURRYiT Amazon Keyword & Competitor Analysis

Product: CURRYiT Chettinad Chicken Curry (cooking paste)

ASIN B0FV3QBKS5 · amazon.in

2,169

raw keywords (Sheet 1)

90

refined keywords (Sheet 2)

14

truly core for this ASIN

Relevance first. Volume second.

CURRYiT Chettinad chicken curry paste (pack as seen on Amazon.in)

Product understanding: what exactly are we selling?

Ready-to-cook Chettinad curry paste. Add chicken, mutton or fish, cook ~15 min.

Pack image: CURRYiT research screenshots (Amazon.in).

Product type	Wet cooking paste (curry base), not a dry masala powder or a ready-to-eat curry
Cuisine / flavour	Chettinad (Tamil Nadu): pepper, fennel, star anise, curry leaves, coconut
Use case	Add fresh chicken / mutton / meat / fish → curry in ~15 minutes
Veg / non-veg	Paste is made from plant ingredients + ghee; positioned for NON-VEG cooking
Key claims (listing)	No preservatives · goodness of ghee · cook in 15 mins
Pack & price	120 g: ₹140 (MRP ₹149) · 3-pack ₹400 (MRP ₹447)*
Rating seen	4.0★ (248 ratings) on Amazon.in in CURRYiT research screenshot

Who searches for it: a non-veg home cook who wants authentic regional (South-Indian) taste without grinding spices. They search by DISH (chettinad chicken), by FORMAT (curry paste / non-veg paste) or by NEED (chicken gravy masala).

SO WHAT FOR CURRYiT A keyword is only relevant if it matches Chettinad flavour, a ready paste/masala format, or a non-veg curry need. "Curry" alone is not enough.

* Target ASIN page could not be opened from our environment; facts from Amazon.in/curryit.in/Instamart listings via web search and CURRYiT research screenshots. Verify pack/price on the live ASIN.

Keyword research overview

2,169

unique raw keywords

Sheet 1 (2,178 rows). Max volume 480/mo

90

refined keywords

Sheet 2 "Main Kws"

66

refined kws NOT in Sheet 1

incl. every term above 480/mo

1,39,020

summed searches (Sheet 2)

75,490 after removing 10 duplicate-metric groups

Sheet 1: summed avg. monthly searches by theme (themes can overlap)

How we evaluated the refinement

Raw universe is biryani-heavy: 915 of 2,169 keywords mention biryani; Chettinad has just 16.

Sheet 2 is a separate pull, not a filter of Sheet 1: 66/90 terms are absent from it.

Incomplete metrics: 32 rows had volume only; 24 were back-filled from Sheet 1, 8 remain volume-only.

Duplicates: 10 groups share identical metrics (Keyword Planner close variants), so volume is counted once.

Every keyword scored on: Intent → Product match → Purchase intent → Relevance.

SO WHAT FOR CURRYIT The refined list mixes two datasets and double-counts variants. Its headline 1,39,020 searches shrink to 75,490 once duplicates are removed.

Keyword relevance framework

SO WHAT FOR CURRYiT "Green curry" and "chettinad masala" both contain curry words. Only one of them can sell a Chettinad paste.

Refined keyword analysis: how good is the list?

Number of refined keywords by relevance class (n=90)

De-duplicated avg. monthly searches by relevance class

SO WHAT FOR CURRYIT Only 14 of 90 keywords (6% of de-duplicated volume) are core. 63% of volume sits in low-relevance or irrelevant terms.

What are shoppers actually searching for?

Cluster	Kws	Searches/ mo	Avg comp. index	Intent	Action
Butter chicken / tikka / tandoori	31	38,930	25	Different dish	ROUTE / EXCLUDE
Thai curries	15	13,470	29	Wrong cuisine	NEGATIVE
Brand	4	5,500	86	Brand	DEFEND / TEST
Other regional chicken masalas	7	5,260	25	Adjacent flavour	TEST
Chicken curry / gravy masala	9	5,220	35	Same need	TARGET (phrase)
Chettinad intent	9	3,000	29	Exact cuisine	TARGET
Korma	3	1,480	84	Different dish	EXCLUDE
Other dishes	3	1,410	0	Other products	EXCLUDE / ROUTE
Curry paste / non-veg paste	9	1,220	47	Format match	TARGET

SO WHAT FOR CURRYiT The largest clusters (tikka/butter chicken, Thai) are the least relevant. The winning clusters are small but precise: Chettinad, paste format, chicken gravy need.

High-priority keywords (Priority 1: Core)

Keyword	Searches/ mo	Comp. (index)	Top-of-page bid (low–high)	3-mo / YoY	Why priority
chettinad masala	1,000	Medium (62)	1.46–6.29	0% / 0%	Exact cuisine, top Chettinad volume
chicken chettinad gravy	1,000	Low (0)	—	+30% / 0%	Dish + gravy = our end result; Low competition
chettinad chicken masala	720	Medium (45)	1.34–21.72	+49% / +49%	Exact match; +49% 3-mo & YoY
non veg curry paste	140	Low (15)	1.06–12.07	0% / +55%	Format + use; Low comp, +55% YoY
chicken curry paste	140	High (100)	0.47–17.74	+27% / +27%	Format + protein; High comp.
non veg masala paste	70	Low (28)	—	0% / +40%	Format + use; Low comp.
non veg curry masala paste	70	Low (11)	1.13–5.95	-44% / -29%	Format + use; cheap bids
chettinad masala paste	30	Low (12)	—	+100% / +100%	Exact cuisine + format; +100% 3-mo
chettinad masala online	10	High (100)	1.24–12.5	+50% / +200%	Explicit online-purchase intent
curryit (own brand)	1,300	n/a	n/a	n/a	Brand defence: own the SERP for our name

Sep 2025 → Aug 2026: 2,900 → 3,690 searches/mo (+27%), peak 4,060 in Jul 2026.

SO WHAT FOR CURRYIT Core demand is small (~3–4k/mo) but growing and cheap to bid on. Win these exact terms before paying for broad volume.

Keyword opportunities missed in refinement (from Sheet 1)

Keyword	Vol.	Comp.	3-mo / YoY	Why add
chettinad mutton masala	50	Low (11)	0% / 0%	Chettinad + mutton — pack says "just add mutton"
karaikudi chicken masala	30	Low (7)	+150% / +150%	Karaikudi = Chettinad heartland; +150% 3-month
chettinad paste	20	Low (32)	0% / 0%	Exact cuisine + format
chettinad masala chicken	20	Low (16)	+200% / +50%	Exact cuisine + protein
ready to cook chicken curry	30	High (100)	+33% / +33%	Exact format + protein
indian curry paste	90	Medium (64)	+767% / +767%	Indian paste format; +767% 3-month
curry paste	390	High (74)	0% / +22%	Category head term: exact format match
chicken gravy masala packet	260	Medium (35)	0% / +129%	Pack-purchase intent for chicken gravy base; +129% YoY

SO WHAT FOR CURRYiT Small, very specific terms (Chettinad mutton, Karaikudi, ready-to-cook chicken curry) were left out while Thai and tikka terms made the cut. Add them to the core set.

Keywords to test: expansion & experimental

PRIORITY 2 · EXPANSION (B)

Same cooking need, broader. Phrase match, moderate bids, watch ACoS.

Keyword	Searches/mo	Comp.
chicken gravy masala	2,400	Medium (63)
gravy chicken masala	2,400	Medium (63)
chicken curry masala	1,300	Medium (47)
chicken kari masala	1,300	Medium (47)
non veg paste	390	Low (3)
chettinad chicken gravy tamil	210	Low (0)
chicken curry with curry paste	140	High (100)
chicken curry curry paste	140	—
chicken gravy indian	110	Low (1)
curry masala packet	70	Medium (42)
masala chicken gravy	40	Low (1)

PRIORITY 3 · EXPERIMENTAL (C)

Adjacent flavours & competitor brands. Small budget, harvest winners only.

Keyword	Searches/mo	Comp.
tikka curry masala	4,400	Medium (39)
mdh chicken masala	1,600	High (69)
chicken curry tikka masala	1,300	Medium (47)
murgh masala	1,300	Low (1)
suhana chicken gravy masala	1,300	High (90)
chicken kala masala	720	Low (25)
kala masala chicken	720	Low (25)
masala kari	590	Medium (46)
chicken hyderabadi masala	590	Low (3)
chicken kolhapuri masala	480	Low (29)
chicken malvani masala	480	Medium (49)

SO WHAT FOR CURRYiT "Chicken gravy masala" is the biggest relevant-need pool (2,400/mo): shoppers expect a powder, so the ad must sell the paste advantage (no grinding, 15 min).

Keywords to exclude, and why

Keyword	Why it looks relevant	Why it's actually weak	Recommendation
chicken tikka curry (22,200)	Chicken + curry; huge volume	Dish name; different dish; recipe/restaurant intent	Exclude / negative (Chettinad)
chicken tikka masala dish (22,200)	Same metrics as above	Same variant group; "dish" = informational	Negative
tye green curry (5,400)	"Curry" + high volume	Misspelt Thai green curry; wrong cuisine	Negative
butter chicken masala (5,400)	Chicken masala purchase	Different dish, but CURRYiT sells Dhaba Butter Masala	Move to Butter Masala campaign
red curry / green curry	"Curry" in keyword	Thai dishes; no Chettinad or Indian-curry intent	Negative (phrase)
red / green / massaman curry paste	Paste format matches	Thai flavour; buyer will not accept Chettinad	Negative (phrase)
korma masala / chicken korma masala	Chicken masala	Mild cream/nut curry; opposite of peppery Chettinad	Exclude
rogan josh curry pasta	CURRYiT makes Rogan Josh	Wrong ASIN for this campaign	Move to Rogan Josh campaign
butter chicken and tikka masala (×6)	Chicken + masala	Comparison queries; informational	Negative

NEGATIVE PHRASE LIST (Chettinad campaigns)

thai	green curry
red curry	yellow curry
massaman	panang
korma	tikka
tandoori	butter chicken
mushroom	biryani
dish	recipe

Apply as negatives to Chettinad/paste campaigns only. Butter-chicken terms go to the Butter Masala ASIN, not to waste.

SO WHAT FOR CURRYiT 47,370 of 75,490 de-duplicated monthly searches (63%) should not reach the Chettinad ASIN. High volume ≠ high relevance.

Competitor landscape: by shopper intent

DIRECT	CATEGORY	SUBSTITUTE
Chettinad pastes: same dish, same format	Non-veg / chicken curry pastes	Same dinner, different format
CurryChief Chettinad Curry Paste	Priya Non Veg Curry Masala Paste	Sakthi Chettinad Chicken Masala (powder)
EL The Cook Madras Chettinad Curry Paste	Nilons Non Veg Curry Paste (keyword data only)	MDH · Suhana · Everest chicken masalas (powder)
Curry Tree Ready-to-Cook Chettinad Masala Paste	ITC Master Chef / Kitchens of India pastes & masalas	Cheffin by Tasty Bite ready-to-cook kits

SO WHAT FOR CURRYiT Direct Chettinad-paste rivals are few and small. The real fight is against cheap powder masalas (₹28–37 per 50 g) that own the "chicken masala" searches.

Competitor comparison (verified where possible)

Brand	Product	Type	Price	Pack size	Key claim	Cuisine	Amazon.in
CURRYiT	Chettinad Chicken Curry paste	Wet paste	₹140 (MRP ₹149)	120 g	No preservatives · ghee · 15 min	Chettinad	Yes
CurryChief	Chettinad Curry Paste	Wet paste	Not verified	2-pack, 275 g total	10-min cook · zero preservatives · veg	Chettinad	Yes (B0B2JDXQQW)
EL The Cook	Madras Chettinad Curry Paste	Wet paste	Not verified	50 g × 2	Natural · no preservatives	Chettinad	Yes (B0C3KVF2CW)
Curry Tree	RTC Chettinad Masala Paste	Wet paste	Not verified	100 g	Not verified	Chettinad	BigBasket; Amazon not verified
Priya	Non Veg Curry Masala Paste	Wet paste	₹115 (MRP ₹124)	4 × 90 g	Non-veg curry base	Andhra/generic	Yes (B0728CGQCW)
Sakthi	Chettinad Chicken Masala	Powder	₹144 (4 × 50 g)	50 g	Chettinad spice blend	Chettinad	Yes
ITC Master Chef	Chettinad Chicken Masala	Powder	Not verified	50 g	Not verified	Chettinad	Flipkart; Amazon not verified
Cheffin (Tasty Bite)	Ready-to-cook meal kits	Kit	₹131–₹699 range reported	Varies	3-step complete curry	North-Indian (no Chettinad found)	Amazon-exclusive

Price per 100 g (where verified): CURRYiT ~₹117 · Priya ~₹32 · Sakthi ~₹72. CURRYiT is the premium option and must justify it on taste, format and "no preservatives".

SO WHAT FOR CURRYiT On price CURRYiT loses to every powder. On Chettinad + ready paste + clean label it has only two small direct rivals. Lead ads with that combination.

Keyword & competitor overlap

Keyword cluster	CURRYiT	CurryChief / EL The Cook	Priya / Nilons	Sakthi / MDH / Suhana	Cheffin kits
Chettinad intent	Strong	Strong	—	Partial (Sakthi Chettinad)	—
Curry paste / non-veg paste	Strong	Partial	Strong	—	—
Chicken curry / gravy masala	Partial	—	Partial	Strong	—
Butter chicken / tikka	Partial (other ASIN)	—	—	Strong	Strong
Thai curries	—	—	—	—	—

Strong / Partial / — = fit with each cluster, judged from product type & cuisine (not ranking data)

- Own brand:** "curryit" 1,300/mo: always-on exact-match defence.
- Competitor brand:** test only where format matches (Priya / Nilons non-veg paste, Sakthi Chettinad). Expect lower CTR; cap bids.
- Generic:** the core of the plan: Chettinad + paste + chicken-gravy need.

SO WHAT FOR CURRYiT CURRYiT competes head-on only in Chettinad and paste searches. Chicken-masala searches belong to powder brands: a conquest play, not a core one.

Amazon Sponsored Products campaign structure

C1 · EXACT · CORE CHETTINAD chettinad masala · chicken chettinad gravy · chettinad chicken masala · chettinad masala paste · chettinad paste · karaikudi chicken masala · chettinad mutton masala	Highest bids	C2 · EXACT · PASTE FORMAT chicken curry paste · non veg curry paste · non veg masala paste · non veg curry masala paste · ready to cook chicken curry · indian curry paste	High bids
C3 · PHRASE · CHICKEN GRAVY EXPANSION chicken gravy masala · chicken curry masala · chicken kari masala · curry paste · non veg paste · chicken gravy masala packet	Moderate bids	C4 · EXACT · BRAND DEFENCE curryit (+ curry it, curryit chettinad as they appear in search-term reports)	Always on
C5 · PRODUCT TARGETING · COMPETITOR TEST ASINs: CurryChief Chettinad, EL The Cook Madras Chettinad, Priya Non Veg Paste, Sakthi Chettinad Masala	Capped test	C6 · AUTO / BROAD · DISCOVERY Low-bid auto campaign; harvest converting search terms into C1–C3	Low bids

Negatives (C1–C3): thai, green/red/yellow curry, massaman, korma, tikka, tandoori, butter chicken, mushroom, biryani, dish, recipe. **Route:** butter-chicken terms → Dhaba Butter Masala ASIN; rogan josh → Rogan Josh ASIN.

SO WHAT FOR CURRYIT Spend follows relevance: exact Chettinad and paste terms get the budget; broad and competitor terms must earn it through search-term reports.

SUMMARY

Final recommendations

CORE

14 Sheet 2 terms + 6 missed Sheet 1 terms: Chettinad, paste format, curryit

EXPANSION

Chicken gravy / curry masala, curry paste, non veg paste (phrase)

EXPERIMENTAL

Regional chicken masalas, competitor brands with matching format

NEGATIVE

Thai curries, korma, tikka/tandoori dishes, "dish", comparisons

COMPETITOR TARGETING

Test CurryChief, EL The Cook, Priya, Sakthi ASINs with capped bids

KEYWORD GAPS

Add chettinad mutton, karaikudi, ready to cook chicken curry, indian curry paste

Data caveats: keyword metrics are Google Keyword Planner estimates, not Amazon search volume or conversion data. Validate with Amazon Brand Analytics / search-term reports after 2–4 weeks and re-rank on actual ACoS & conversion.

SO WHAT FOR CURRYIT Don't chase 22,200-search tikka terms. Own the ~4k monthly Chettinad and paste searches first, then expand into chicken-gravy needs as data proves profitable.
